This text series of Water and Wastewater Engineering have been written in a time of mounting urbanisation and industrialisation and resulting stress on water and wastewater systems. Clean and ample sources of water for municipal uses are becoming harder to find and more expensive to develop. The text is comprehensive and covers all aspects of water supply, water sources, water distribution, sanitary sewerage and urban stormwater drainage. This wide coverage is helpful to engineers in their every day practice.

With the first centerfold image of the radiant Marilyn Monroe, Hugh M. Hefner masterminded a cultural icon: Playboy's Playmate of the Month. This voluptuous new edition celebrates every nude centerfold from every issue of Playboy, from 1953 to February 2016. Initially published a decade ago, and now comprehensively updated, this must-have edition boasts 734 nude centerfolds and decade openers from literary luminaries, including an all-new essay by Elizabeth Wurtzel on the last decade of centerfolds, and a redesigned package that perfectly captures the complete cultural and aesthetic arc of the Playboy centerfold.

YOTSUBA heeeeeere! Guess what, guess what!? Yotsuba is going to a flower store with Fuuka! Yotsuba's gonna give flowers to everybody in the whole, wide world, even the police lady with her whistle that goes - PI! PI! PIPI! PI! PIPUUUUUUUU!!

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

A hilarious, original story for anyone who has ever been dumped, or lived in a dump, 'full of belly-laughs and painfully acute observations'. (Independent on Sunday) Meet Will Kelly. English teacher. Film Fan. Pot Noodle expert. Ex-boyfriend. Still in love with The One, Will is desperate to discover if there can be An-Other One. In his decrepit flat where he can't even manage to cook spaghetti hoops without setting of the communal smoke alarm, his lifeline is the telephone. Will realises that with a single call, friends can either lift him from the depths of despair or completely shatter his hopes. There's Alice (who remembers his birthday), Simon (who doesn't), Kate (the previous tenant of his rented hovel). And of course his ex, Aggi. The inimitable Aggi. His legendary Girlfriend. Or is She?

How can you create products that successfully find customers?
