6 AIA Introduction to Codes and Standards n Are without favoritism or bias to any special interest; n Include provisions for a prompt appeals procedure for all that might be aggrieved; n Are cost-effective in relation to public benefit; and n Promote building code provisions that set performance rather than prescriptive criteria. The AIA plays a critical role in the development of the ...

### AIA Introduction to Codes and Standards

The 16 Divisions of construction, as defined by the Construction Specifications Institute (CSI)'s MasterFormat, is the most widely used standard for organizing specifications and other written information for commercial and institutional building projects in the U.S. and Canada.In 2004, MasterFormat was updated and expanded to 50 Divisions. It provides a master list of divisions, and section ...

### 16 Divisions - Wikipedia

The cost code structure serves the same purpose for JD Edwards EnterpriseOne Job Cost that the chart of accounts serves for JD Edwards EnterpriseOne General Accounting. You organize cost code structures by chart type, which is a user-defined code (UDC) (51/ TC). To create a cost code structure, you add cost codes and cost types to the chart type.

### Setting Up Cost Code Structures

The CSI (Construction Specifications Institute) MasterFormat contractor item list is a standard item list used for most commercial building design and construction projects in North America. It lists titles and section numbers for organizing data about construction requirements, products, and activities.
