A single-page  
application is a web  
application or website  
that interacts with the  
user by dynamically  
rewriting the current  
web page with new  
data from the web  
server, instead of the  
default method of the

# Download Free Building Single

Page browser loading  
entire new pages. The  
goal is faster  
transitions that make  
the website feel more  
like a native app. In a  
SPA, all necessary  
HTML, JavaScript,  
and CSS code is either  
retrieved by the  
browser with a single  
page load, or the  
appropriate resources  
are dynamically
