Tracker dictionary explains different terms of Cryptocurrency and blockchain. These are the terms commonly used in the world of blockchain and cryptocurrency.

## Cryptocurrency and Blockchain Dictionary

The Bitcoin blockchain is a global network of computers that all work

# Online Library Cryptocurrency

together to process and verify each transaction. No single entity controls the Bitcoin network.

Therefore, it is censorship-resistant and free for anyone to use however they want.

Bitcoin works in a peer-to-peer fashion and can be sent and received from anywhere in the world.
