coming out of the machine to the cleanerhead. The DC25 is notorious for cleanerhead problems; you will find other articles on Dyson Medic about it. But this is one we are seeing more and more of, so I thought it worth documenting.

DC25: No Power To Cleaner Head - Dyson Medic

Remove the Red [C] Clip. Lie the machine on its front. Then, detach the red 'C' clip which is located at the connection between the cleaner head and the main body of the vacuum. Pull the cleaner head away from the main body using a constant, firm pressure. Make sure to not detach the red [C] clip too roughly.

Dyson

One of the most common Dyson vacuum problems is losing suction. This issue usually boils down to a dirty filter. A Dyson vacuum comes pre-equipped with everything you need to operate it, as long as you keep the filters clean. Unplug the machine before proceeding. Press the release to remove the filter housing from the unit, based on the model you have.
