Using the volume described in Example 1.3.2, with the upper surface between the sheets, there is a contribution to the charge enclosed from both the lower sheet and the volume between that sheet and the position, z , of the upper surface. Thus, from (1) (1) and the solution for E_z gives (2)

I love this book, and I
don't really like
electromagnetism.

Pollack and Stump use
an easily understood
writing style that is

concise, thorough, and occasionally witty. Their use of extensive examples is great for the visual learner. This book covers a full academic year's worth of advanced electricity and magnetism courses.
