The guitar is more than a musical instrument. It is an archetype. In homage, Light Strings brings together two masters of their craft: photographer Ralph Gibson and former guitarist for the Police, Andy Summers. Gibson's enigmatic and sensuously elegant photographs are the visual counterpart to Summers' lyrical history and thoughtful exploration of the instrument's features. Together they create a unique poetic meditation on the guitar. Both artists pay attention to the form of the guitar and its relationship to the body; its curves echo the human figure, not only requiring it to be cradled to play it, but inviting a study of its own sumptuous anatomy. With over one hundred alluring images that capture the graceful details of the instrument, Light Strings is the book for every guitar player.

Traces the history of the Stathopoulos family from their roots in Greece to the formation of Epiphone and on through to the sale of the company to Gibson in 1957.

(Book). The story of Epiphone, one of the oldest and most famous guitar companies, is told by former staff historian Walter Carter. It's an epic story spanning three centuries, from Old World roots in the 19th century to the golden age of American makers in the 20th century and onward into the global market of the new millennium. It's the story of America's business, from an individual luthier to a family business and on to corporate ownership. And it's the story of American popular music, powered by Epiphone guitars, from big-bodied Emperor that drove the swing bands of the 1930s, to the electric hollowbodies of the 1960s used by The Beatles and studio ace Howard Roberts, to custom solidbody models for such modern rockers as Noel Gallagher (Oasis), Jeff Waters (Annihilator), and Frank Iero (My Chemical Romance). Beautifully illustrated with photos of all the important Epiphone instruments and the extraordinary musicians who played them, this is a fascinating history of an iconic name in the world of the guitar.
