From Farm to Firm: Rural-Urban Transition in Developing ...

The process of rural-urban transformation presents both opportunities and challenges for development. If managed effectively it can result in growth that benefits everyone; if managed poorly it can lead to stark welfare disparities and entire regions cut off from the advantages of agglomeration economies.

A farm is an area of land that is devoted primarily to agricultural processes with the primary objective of producing food and other crops; it is the basic facility in food production. The name is used for specialised units such as arable farms, vegetable farms, fruit farms, dairy, pig and poultry farms, and land used for the production of natural fibres, biofuel and other commodities.
