Gaspard Monge
Gaspard Monge, Comte
de Péluse (9 May 1746 –
28 July 1818) was a
French mathematician,
the inventor of
descriptive geometry
(the mathematical basis
of technical drawing),
and the father of
differential geometry.
During the French
Revolution he served as
the Minister of the

Marine, and was involved in the reform of the French educational system, helping to found the École Polytechnique

Gaspard Monge - Wikipedia
Gaspard Monge, count de Péluse, (born May 10, 1746, Beaune, France—died July 28, 1818, Paris), French

mathematician who invented descriptive geometry, the study of the mathematical principles of representing three-dimensional objects in a two-dimensional plane; no longer an active discipline in mathematics, the subject is part of mechanical and architectural drawing.

Gaspard Monge, count de Péluse | French mathematician and ... Gaspard Monge is considered the father of differential geometry because of his work Application de l'analyse à la géométrie where he introduced the concept of lines of curvature of a surface in 3 -space. View nine larger

Fresque Gaspard Monge (Paris) - 2020 All You Need to Know ... Gaspard Monge 1746-1818 French Mathematician, Physicist and Chemist T he most widely recognized of the many achievements attributed to Gaspard Monge, sometimes known as the comte de Péluse, was his development of

descriptive geometry as a means of representing three-dimensional objects in two dimensions.

Gaspard Monge | Encyclopedia.com
Gaspard Monge is one of 72 scientists whose name is on the first floor of the Eiffel Tower. He is 18th, on the face turned to the South.

Gaspard Monge, a surveyor, was born at Beaune, in Burgundy, in 1746. He died in Paris on July 18, 1818.

Biography of Gaspard Monge
Gaspard Monge the Mathematician In the year 1818 Gaspard died of a stroke, having had all his honours taken way by the Bourbons.

However, mathematicians will always remember Gaspard Monge as the inventor of Descriptive Geometry and also, the application of his analysis techniques of the theory of curvature.

Gaspard Monge Biography - Who Invented First

French mathematician

Gaspard Monge invented descriptive geometry and pioneered the development of analytical geometry, both of which have since become part of projective geometry. He was born on May 10, 1746, in Beaune, France.
