~~Updates to neonatal, pediatric resuscitation guidelines ...~~

Neonatal Resuscitation Techniques As previously described, very few newborn babies will require chest compressions or epinephrine. In fact, most neonates will respond to simple warming and airway suctioning. The goal of neonatal resuscitation is to act promptly, but with a measured, reasonable approach.

~~NRP Study Guide National CPR Association~~

The Neonatal Resuscitation Program® (NRP®) course conveys an evidence-based approach to care of the newborn at birth and facilitates effective team-based care for healthcare professionals who care for newborns at the time of delivery. NRP utilizes a blended learning approach, which includes online testing, online case-

based simulations, and hands-on case-based simulation/debriefing that focus on critical leadership, communication, and team-work skills.

~~Welcome to NRP~~

Whereas the initial program was based almost entirely on expert opinion, the Neonatal Resuscitation Program (NRP) currently makes recommendations for practice based on the best available scientific evidence regarding specific practices.

~~Neonatal Resuscitation Program Instructor Update~~

In 2015, the Neonatal Resuscitation Program (NRP) published updated guidelines for neonatal resuscitation. Key additions to the 2015 NRP algorithm include consideration of using 3-lead electrocardiography (ECG) to monitor

heart rate (HR) and initiating intubation before chest compressions.

~~Neonatal Resuscitation | American Academy of Pediatrics~~

□ The 2017 NRP guidelines recommend a 30- to 60-second delay in clamping in all term and preterm infants not requiring resuscitation. □ If the placental circulation is disrupted (e.g., placental abruption), the cord should be clamped immediately. Investigators found that delayed clamping reduced mortality before discharge.

~~Recent Recommendations in Neonatal Resuscitation 2019 UPDATE~~

Textbook of Neonatal Resuscitation (NRP), 7th Ed. The Neonatal Resuscitation Program (NRP) is an educational program jointly sponsored with the American Heart Association (AHA). The course conveys an evidence-

based approach to care of the newborn at birth and facilitates effective team-based care for healthcare professionals who care for newborns at the time of delivery.

~~Textbook of Neonatal Resuscitation (NRP), 7th Ed | AAP eBooks~~

Revisions include: □ Begin the resuscitation with antenatal counseling (when appropriate) and a team briefing and equipment check. □ Maintain the newborn's normal body temperature during resuscitation. □ Consider using a cardiac monitor when PPV begins. □ Ensure ventilation that inflates and moves the chest.

~~Summary of the Revised Neonatal Resuscitation Guidelines~~

In 2015, the Neonatal Resuscitation ILCOR and Guidelines Task Forces repeated

their 2010 recommendation that, when PPV is administered to preterm newborns, use of approximately 5 cm H₂O PEEP is suggested (Class IIb, LOE B-R). This will require the addition of a PEEP valve for self-inflating bags.

~~Part 13: Neonatal Resuscitation ...~~

Newborn resuscitation helps to establish breathing and circulation. It is very essential to prevent hypoxic damage to various organs especially the brain. Neonatal Resuscitation Program is a set of educational guidelines established by the Department of Neonatology. Every pediatrician must be accommodated with the basic steps of resuscitation.
