Configuring Web Intelligence Rich Client - SAP Help Portal

Web Intelligence Rich Client is an ad-hoc analysis and reporting tool for business users with or without access to the BI platform. It allows business users to access data via universes (.unv and .unx), BEx queries, or other sources, using familiar business terms in a drag-and-drop interface. Workflows allow very broad or very narrow questions to be analyzed, and for further questions to be asked at any point in the analysis workflow.
