Thank you very much for downloading **standard mathematical tables and formulae**. Maybe you have knowledge that, people have search hundreds times for their chosen books like this standard mathematical tables and formulae, but end up in infectious downloads.

Rather than reading a good book with a cup of tea in the afternoon, instead they are facing with some harmful bugs inside their computer.

standard mathematical tables and formulae is available in our book collection an online access to it is set as public so you can download it instantly.

Our book servers hosts in multiple countries, allowing you to get the most

Financial mathematics In all of the following, t is the time in years and i is annual rate of interest, depreciation or growth, expressed as a decimal or fraction (so that, for example, $i = 0.08$ represents a rate of 8%)
1. Compound interest: $F = P(1 + i)^t$ ($F =$ final value. $P =$ principal)
Present value: $P = F(1 + i)^{-t}$ ($F =$ final value. $P =$ present value)
