What is Relativity? An explanation of the strange

properties of relativity by Jeff Yee. **Why Gravity is**

**NOT a Force What Is Relativity Jeffrey Bennett**

$E = mc^2$  is actually one of the discoveries that

Einstein made as part of the theory of relativity; that

is, it is one of the equations of relativity. In words, the

equation states that energy (the  $E$ ) is equal to mass

(the  $m$ ) times the speed of light (the  $c$ ) squared.

**What is Relativity? Author Q&A - Jeffrey Bennett**

What Is Relativity? is a well-written and uniquely

readable book that beautifully serves as an

introduction to special and general relativity. Jeffrey

## **What Is Relativity?, Jeffrey D Bennett - Shop Online for ...**

For in its relatively few pages, Bennett explains relativity to ordinary readers. Applying two simple principles—the uniformity of natural law and the invariance of the speed of light—readers conduct thought experiments that fuse time and space into a single concept.
