SETTING UP A WINERY FOR BASIC MUST AND WINE ANALYSIS

It is okay to contact a wine lab to ensure that the winery is ordering the appropriate tests done for wines being submitted. Most labs have technical staff on hand to answer these types of questions. Furthermore, many labs offer additional services for more specific chemical analysis (e.g., tannin content) or for microbial analysis (e.g., culture plating, PCR). Some labs may offer sensory ...

Starting a Lab in a Small Commercial Winery

At a cost of \$275 to \$1,000, such a meter may be more of a “ wish list ” item than an essential component of your wine laboratory. A bench meter does have several advantages, though. It offers the opportunity to use interchangeable electrodes for different specific purposes. The use of thinner glass on the pH probe bulb also allows a faster response time, making these meters better for ...
